

# Longlife design. Everyday training.

- ▶ We know how to do it. Thanks to **1500 projects** around the world.
- ▶ We can **dispatch goods still today**. We have everything in stock.
- ▶ **We produce in the Czech Republic**. In the heart of Europe.
- ▶ **We'll advise you** with combinations of equipment.
- ▶ During development we cooperate with fitness and health **professionals**.

# Places that bring happiness

## FITNESS EQUIPMENT

---

Absolutely everyone can exercise in the fit-parks — moms with kids, teenagers, senior citizens. Absolutely everyone. And all they need to work out is the weight of their own body.

**CX SERIES**  
ALL-METAL DESIGN

Cost-effective choice wherever people live. Great performance at a good price.

**CE SERIES**  
STAINLESS STEEL DESIGN

Exclusive design and long-term investment. If you're looking for resilience, here it is.

**LK SERIES**  
FAITHFUL IMITATION OF WOOD

Elegance, which doesn't disrupt the harmony of historical urban areas and parks.

**CZ SERIES**  
CUSTOM COLORS

Durable all-metal construction, modern design and colors as you like.

## PARKOUR

---

These areas are created primarily for teenagers, starting from 10 years of age. Our Parkour playgrounds meet European standards and were designed with the co-operation of wellknown Czech Parkour practitioners.

## AGILITY

---

Dogs are a part of every second household, so we are happy to introduce to you our agility playground sets. We use time-proven materials for the safe and natural movements of dogs.

## STREET WORKOUT

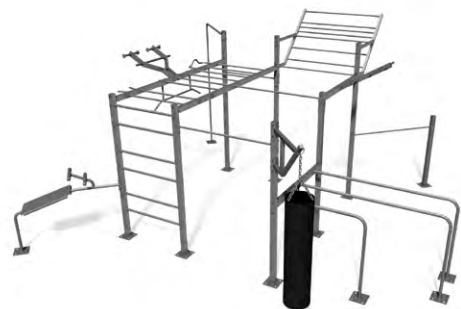

---

The symbol of a healthy lifestyle and the returning of people to the public space. Thanks to the patented modular system, you can expand our sets endlessly.

**WO SERIES**  
ALL-METAL DESIGN

No mechanical parts, high resistance and great price to performance ratio.

**WOS SERIES**  
STAINLESS STEEL DESIGN

Literally indestructible sets in an exclusive design for intense use.

# NEW :: Stainless steel with teak cladding

For Street Workout and Fitness Equipment

- ▶ Luxury design
- ▶ Moisture resistance
- ▶ High durability

There is no better choice for modern urban areas and private gardens or residences.

The teak wood is **one of the most durable** in the world. It's immune to mould, rot and insects. Thanks to the content of the oil resins it preserves the iron joints and protects them against corrosion. So it looks great for years.

# Our equipment is used by people in 15 European countries

We've already done 1.500 projects around the world. We're number one for outdoor exercising in Czech Republic.

## WE HAVE EVERYTHING IN STOCK

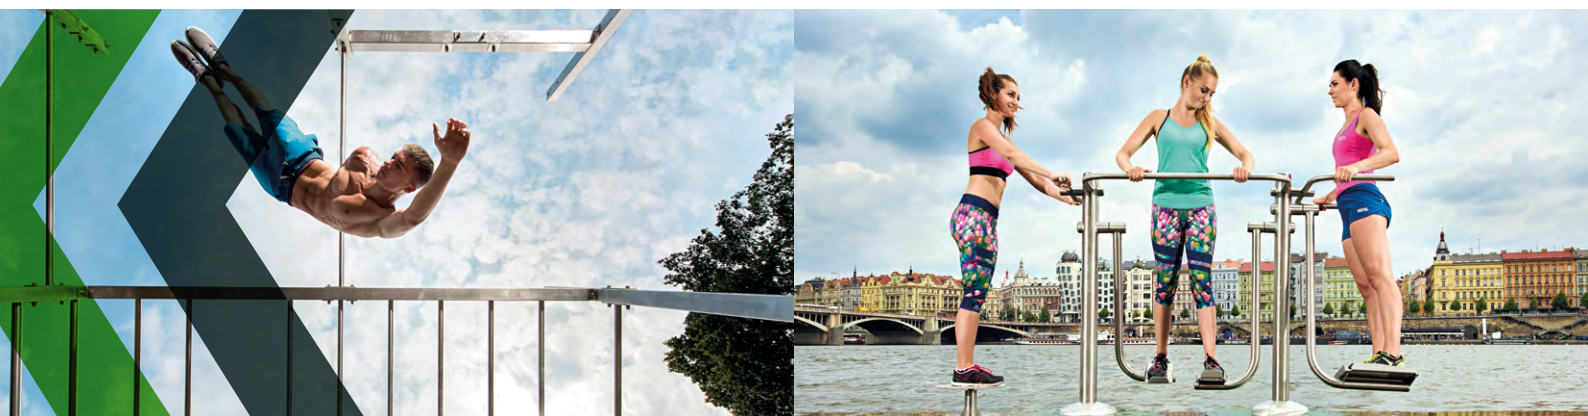

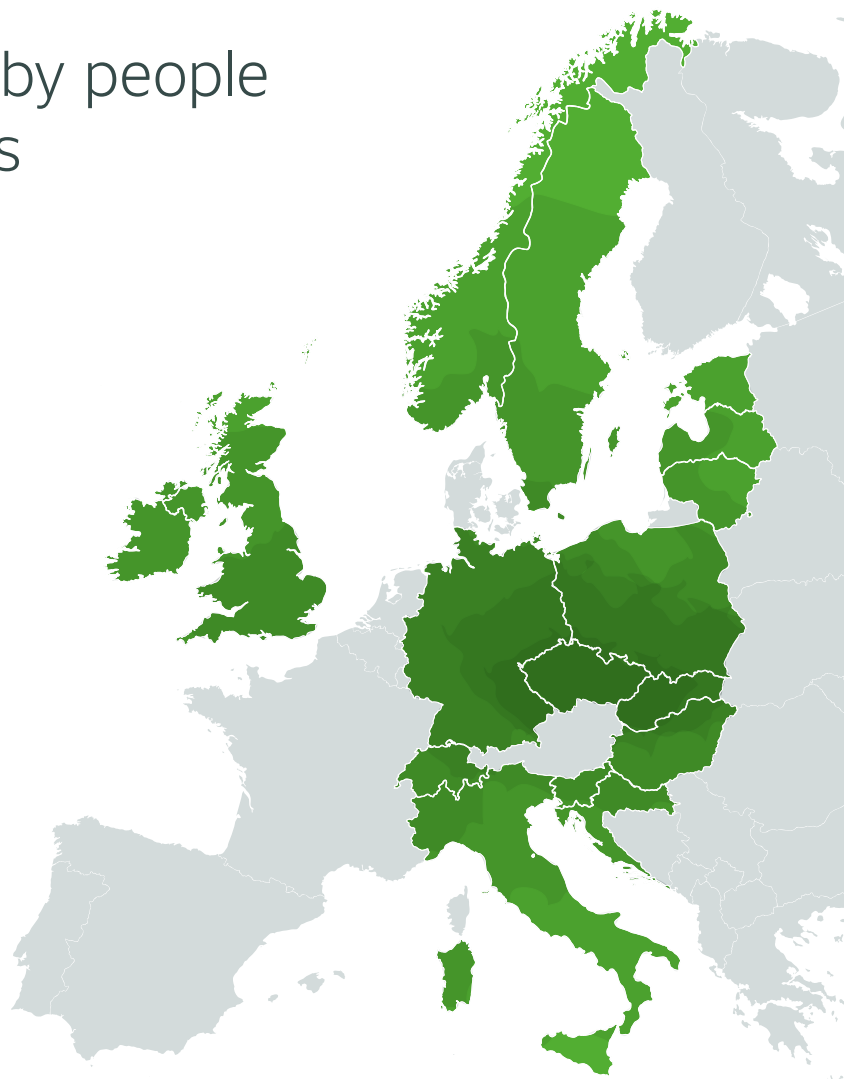

Order whatever you want. We'll dispatch goods today so you can exercise tomorrow.

## OUR EXPERIENCE IS YOURS

We'll recommend suitable combinations of equipment. We'll do 3D visualisation. And we'll deliver sets that people will love.

## SAFETY FIRST

All machines are carefully tested and they meet the strictest European standards.

## We are in the heart of Europe
